REASONS FOR ALLOWANCE

The following is an examiner's statement of reasons for allowance: the prior art is not seen to teach or fairly suggest methods of treating *Flaviviridae* infections using the claimed compounds. The closest prior art is seen to be 2005/0267048, which is drawn to compounds overlapping with those used in the instant application and methods of treating viral infections using the same; 2004/0180838, which is drawn to methods of treating protozoal infections using compounds overlapping in scope with the compounds used in the instant application; and 2005/0059612, which is drawn to methods of treating a herpes virus using various species of the instantly used compounds (it is noted that all of these applications have been recently allowed). However, applicants have filed terminal disclaimers over all three of the above copending applications, and such, the instant application is seen to me in condition of allowance.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Traviss C. McIntosh whose telephone number is 571-272-0657. The examiner can normally be reached on M-F 9:30-6:00.
